

**Selofelo – the new app that changes going out!**

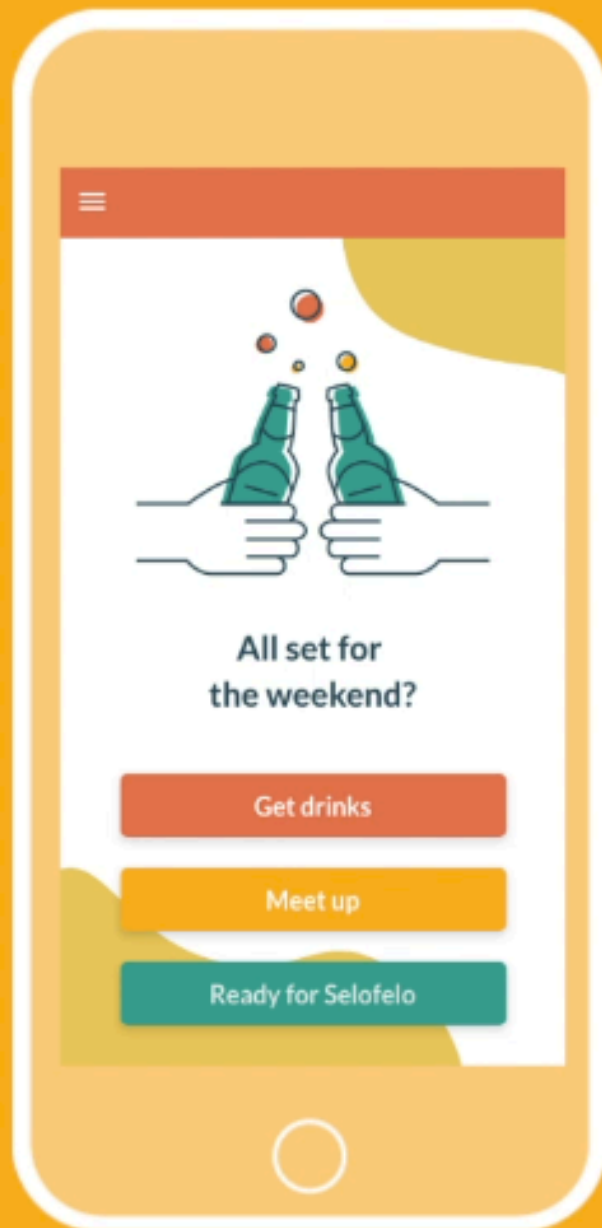

**Selofelo can be used for different activities such as**

- **city festivals**
- **pub tours**
- **festivals**
- **holiday trips**

**The map, the locations and the interactive games can be configured individually. Different options for use of the app are also possible.**

**Other benefits:**

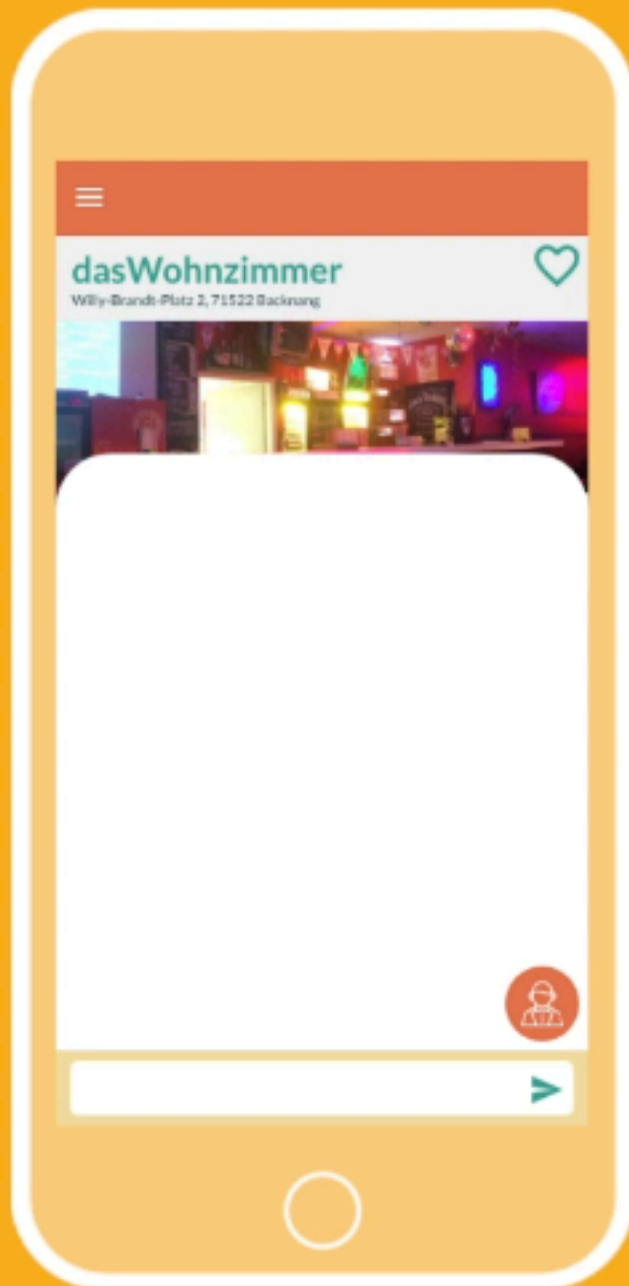

- **predictable planning**
- **flexible and user-friendly**
- **new mainstay**
- **reaches new target groups**
- **includes people with disabilities**

**Via push messages, customers are invited to get equipped with everything they need for their activity. The different options can be implemented and provided upon your request.**

**Order drinks from your favourite bar and have them delivered!**

**Virtually meet up with your friends!**

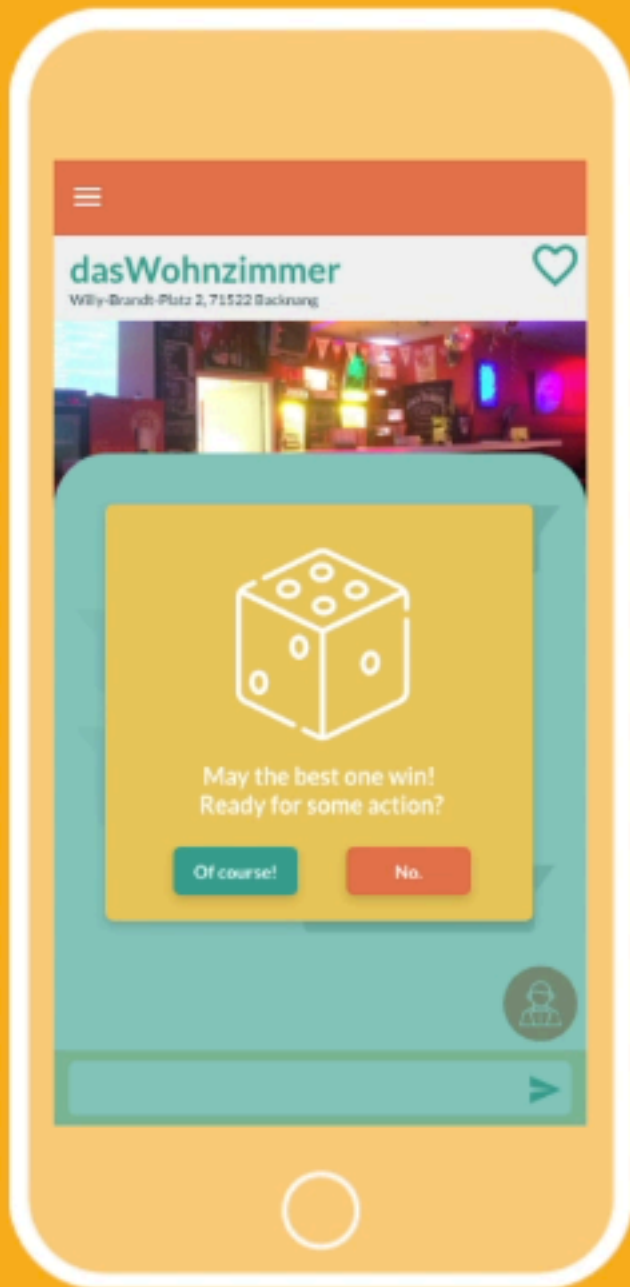

**Once a user enters a chat room, the respective location/band receives a small fee.**

**The chat room can also be used as concert stage or for a tour.**

**Here, the user pays for drinks or, if possible, orders some more.**

**Chat with your friends  
& meet new people!**

**No more beer?  
Use the barkeeper menu  
to order more drinks!**

**Playing games together is a social experience and makes for a fun evening!**

**You chose which game to play. Various options are available which can be implemented, modified or extended.**

**This means, the focus can be placed on local characteristics. Furthermore, it is possible to draw attention to specific highlights.**

**Enter the quiz, a game or a challenge and compete with your friends!**

**Selofelo is a digital, interactive party game.**

**It is programmed in JavaScript as react front end WebApp.**

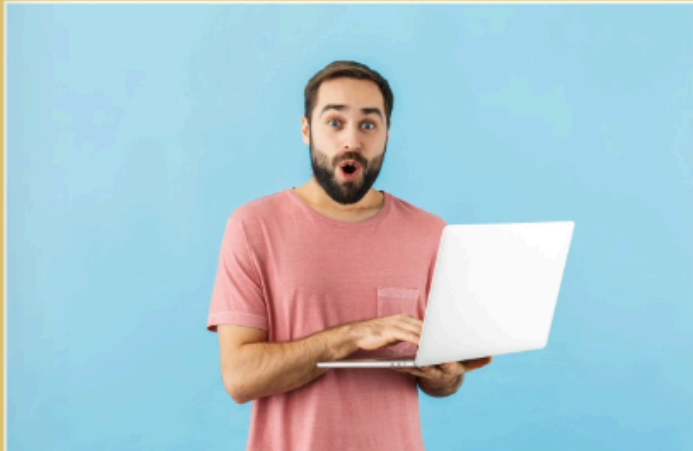

**Selofelo is available for a non-recurring price advantage of 1999€.**

**At an additional charge, our programming engineers of "Watermelon Solutions" are available for set-up and configuration services on your server.**

**The same applies to graphic redesign by "Nathalie Block Grafikdesign".**

**We can also provide an extension to include non-data-based games at an additional charge.**
